

PORT OF VÁGUR

Only 53 miles from the oil field, Port of Vágur is your nearest port, committed to servicing the oil industry with MRO services, hydraulic and hi-tech steel work, gas and oil bunkering and provisioning.

At the same time, Vágur is close to the mainland, with Vagar Airport only 30 min away by air or three hours by car and ferry. Tórshavn is 15 min away by air or two hours by ferry.

Entering the port is safe and easy, with a tidal range of max one metre. The port is protected from currents and waves and has a 24-hour pilotage service.

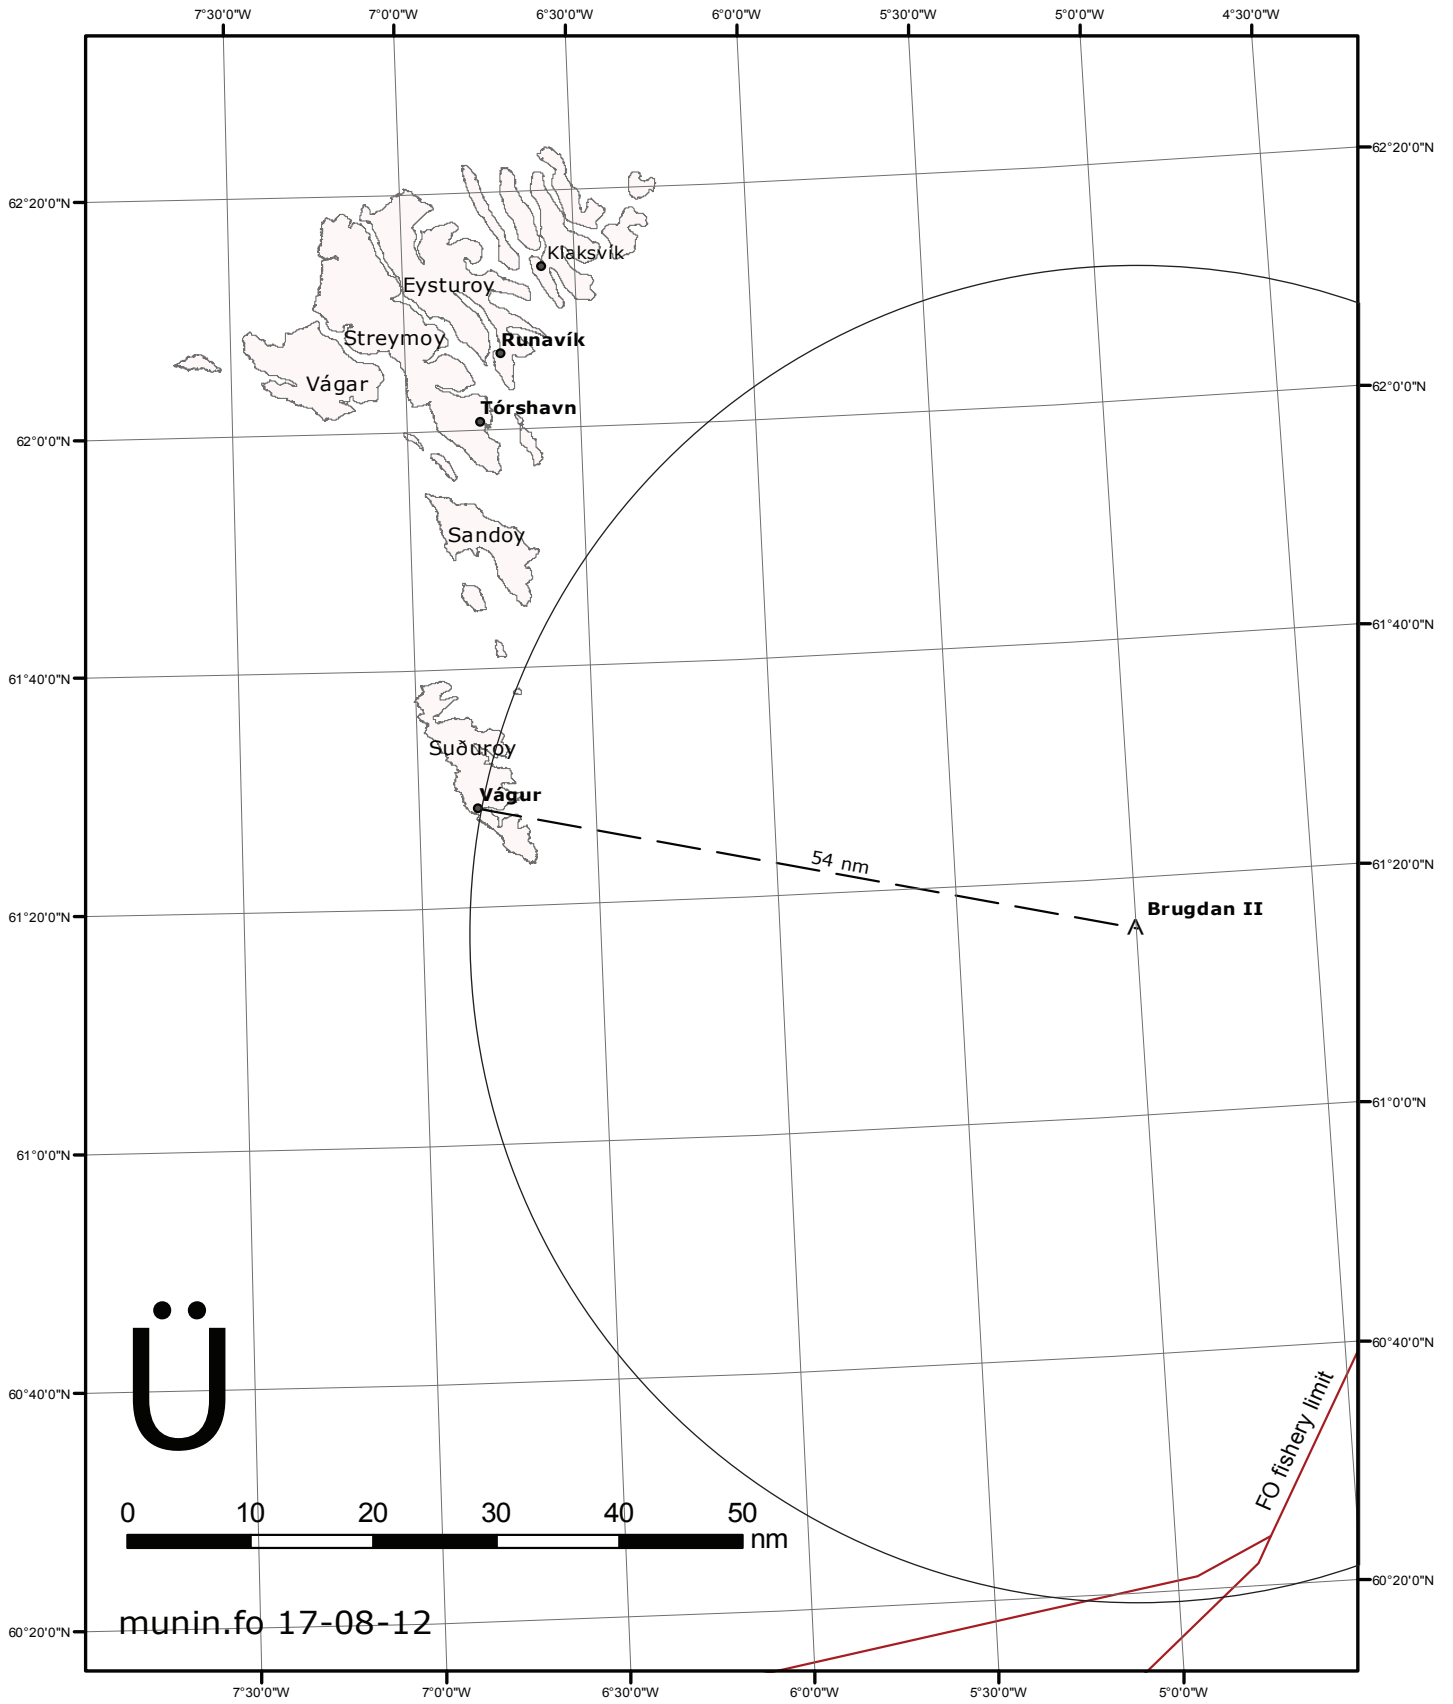

The port features an 80m quay with a depth of 10 metres and ro-ro wharf with a quayside area of 80

by 60 metres as well as a 137m quay with a depth of 7 metres.

At the new area, Oyrarnar, the sandy bottom makes it possible to build a quay with a depth of 12 m and a large quayside area, which can be adapted according to need. Coordinating company arranges all services before the ship enters the port - We are ready!

Well-equipped shipyard. Ship size: max 1500 tonnes, keel 65m, width 15m. Comprehensive services: maintenance and repairs of hydraulics, piping, electrical and radio mechanics.

Rock Trawldoors works with hi-tech steel, e.g. Har-dox and Weldom from the steelworks Oxelösund in Sweden. Precision cutting with plasma, oxygen and gas in the range of 1mm to 120mm steel plates by qualified experienced trawl door welders.

Tangavirkið has a large supply of spare parts and handles all kinds of steel, pipe and hydraulics work and uses modern tools for bending, rolling and cutting. Certified welders ensure quality performance.

Faroe Maritime Technic provides a comprehensive solution for environmentally friendly handling of oil contaminated water and sludge with the Sludge Dewatering Separator. A breakthrough in oil-induced sludge disposal, the Sludge Dewatering Separator may be used both on land and at sea and is produced in different sizes according to need.

FACTS AND SERVICES

- Vagar Airport: 30 min by air, three hours by car and ferry
- Tórshavn: 15 min by air, two hours by ferry
- Easy port entrance
- Tidal range max 1m
- Pilotage: 24-hour service
- Harbour protected from currents and waves
- 10m deep harbour with 80m quay
- Ro-ro wharf
- Quayside area of 80m by 60m
- 7m deep wharf of 137m
- New adaptable area; possible to build a quay with a depth of 12 m according to your need
- Comprehensive services
- Coordinating company arranges all services before the ship enters the port
- Gas- and heavy oil bunkering
- Water- and power supply
- Tanks for waste oil
- Waste disposal
- Well-equipped shipyard; Ship size: max 1500 tonnes, keel 65m, width 15m
- Comprehensive services: maintenance and repairs of hydraulics, piping, electrical and radio mechanics
- Rock Trawldoors works with hi-tech steel, e.g. Hardox and Weldox

PROVISIONS

- 1200 m2 shopping centre with several shops
- Tax-free provisions of dried, frozen and cold commodities as well as fruit
- Freshly baked goods
- “Okkara” beer, gifts, home accessories and clothes
- Reliable service 7 days a week
- Victuals
- Tools
- Soap for ships
- Wellingtons / Rubber boots
- Oilskins
- Furniture

SECURITY IS CRUCIAL

- Hospital
- Doctors
- Dentists
- Well-equipped fire station and rescue team
- Heliport

PERSONAL CARE

- Physiotherapy
- Occupational therapy
- Podiatrist
- Hairdressers

HOTEL

- With restaurant

ACTIVITIES, SPORTS AND CULTURE

- Bowling
- Different museums
- Cultural centre
- Water skiing
- RIB
- Good sports facilities:
 - sports hall
 - swimming pool
 - Old whaleboats
- The smack Johanna
